

UNIVERSAL

Universal. We've been in this business a long time, manufacturing quality supplements for champion bodybuilders the world over. We've seen history unfold and we've made some history too. We've witnessed the ebb and flow of the sport, seen the greats come and go. When we started, bodybuilding was still in the Golden Age. We were supporting the sport when the first

Sandow was awarded to the Olympia champion. How is it that we've been here for so long? Because our business is more than just business. Anything worth doing means doing it right, the old-fashioned way. Above all else, you need to have a genuine passion for what you do. For well over three decades, our passion has not cooled. The fire is still hot. This is Universal. Since 1977.

Since '77

Why choose Universal Storm™?

IT WORKS: If you want to enhance your performance in the gym and add serious size onto your frame, then look no further than Storm™. We are talking about serious size, not extra fat from the sugar-loaded creatine products of the past. We use only the finest and most advanced blend of creatine including magnesium creatine chelate, which is a patented form of the molecule that has been shown to boost strength after only 2 weeks of use. This coupled with the potent blend of nitric oxide boosters and insulin potentiators that make up Storm's™ delivery system makes it the most potent volumizing formula available.

IT HAS A SUPERIOR DELIVERY SYSTEM: Storm™ uses a unique delivery technology called iNOXSulin-7™, that speeds up the absorption without the need for any unwanted glucose ingestion. iNOXSulin-7™ uses time released nitric oxide boosters and insulin potentiators to effectively shuttle the creatine into the muscle tissue during your "window of opportunity" that exists directly prior to and immediately after your workout. You can also expect incredible pumps from the NO boosting complex that will help increase your energy levels in the gym.

IT HAS 4 FORMS OF CREATINE: Storm™ uses 4 diverse forms of creatine to form the foundation for this advanced formula that can help saturate your muscle tissue like no other. Storm™ contains some of the most technologically advanced forms of creatine, including magnesium creatine chelate, dicreatine malate and tricreatine matrix (TCM) for superior uptake. We didn't forget creatine monohydrate, the tried and true form that has produced proven results time and time again. Introducing these four distinct forms into your system will allow for a continuous flood of creatine into your muscle tissue for sustained benefits throughout the day.

Specifications

FORM:	Flavored Powder
SERVING:	1 Scoop (~10g)
SERVINGS PER:	80
BOTTLE SIZE:	1.65 - 1.86 lb
ITEM #:	4799 Blue Raspberry (1.65 lb) NEW 4800 Grape Splash (1.86 lb) 4802 Fruit Punch (1.67 lb)

Stacking Tip: The "Mass Blast Stack"

The Mass Blast Stack™ of Shock Therapy®, Storm™ and N1-T™ covers all of your bodybuilding supplementation requirements. Pre-workout, Shock Therapy® provides a blend of nutrients designed to take your training to the next level. Post-workout, Storm™ works to quickly replenish depleted ATP stores. Finally, for all day testosterone support there is N1-T™. Providing extreme energy, intense pumps, cell volumization, increased strength, enhanced mental focus and testosterone support, the Mass Blast Stack™ addresses all of a bodybuilder's training needs.

Dosage Suggestions:

- 1. Shock Therapy®**
Take one serving 30-45 minutes prior to lifting for powerful pumps and increased strength.
- 2. Storm™**
Take one serving 30 minutes post-workout to achieve desired cell volumizing effects.
- 3. N1-T™**
Take one serving 30 minutes pre-workout and another serving before bed for increased testosterone.
